# Subject index Volume 54, 1979

- Abdominal  
pain, acute, and viruses in childhood, 780  
of nonorganic cause, recurrent, investigation using psychological tests, 165, P.
- Abortuses resulting from prenatal diagnostic surveillance for neural tube malformations, examination, 158, P.
- Achondrogenesis type II, histochemical and densitometric study of cartilage, 153, P.
- Adder bites in children: short report, 392
- Adenine phosphoribosyltransferase, complete deficiency presenting as renal stones, 25
- Adenovirus infection, type-21, pulmonary sequelae, 13-year follow-up, 155, P.
- Adrenal hyperplasia, salt-losing congenital, continuing need for mineralocorticoid therapy, 350
- Aldosterone and renin response in human newborns to acute blood volume change: correspondence, 80
- Allergy, bronchial, in cystic fibrosis, 164, P.
- Amino-acid metabolism and growth in infants with chronic renal failure, 321, P.
- Aminophylline IV and salbutamol IV, comparison in treatment of asthma: short report, 391; correspondence, 983  
intravenous, in apnoea, dosage schedule, 190
- Amniocentesis, diagnostic service, morbid anatomists' role, 152, P.
- Amniotic fluid, meconium-stained, increased concentrations of hypoxanthine and xanthine in, 727, P.
- Amyloid nephropathy in familial Mediterranean fever, 320, P.
- Anaemia in childhood coeliac disease: correspondence, 648
- Anal stenosis, congenital, delayed diagnosis: short report, 68
- Angiotensin and renin in normal prepubertal girls, 160, P.
- ANNOTATIONS  
A better deal for newborns with congenital heart disease, 268  
Diagnosis of malignant hyperphenylalaninaemia, 329  
Genetic registers, 169  
Red cell aplasia in children, 263
- Antidiuretic hormone secretion, inappropriate, in mechanically-ventilated newborn infants, 320, P.
- Antigen-antibody complexes in serum in juvenile chronic arthritis, 120
- Antipyrine  
drug metabolism in malnourished children, 299  
treatment, maternal, in neonatal jaundice prophylaxis, 725, P.
- Aortic arch interruption presenting with absence of all limb pulses, 49
- Aortography in infantile coarctation: short report, 717
- Apnoea  
alarm systems, explanation for failure, 982, P.  
and hypoventilation in neonate, use of doxapram, 981, P.
- intravenous aminophylline in, dosage schedule, 190  
of prematurity, relation to differential delay in myelination of vagal fibres, 153, P.  
theophylline half life: short report, 238
- Arrhythmias, cardiac, and prolonged QT interval in two neonates, sudden infant death syndrome in one, 776
- Arterial oxygen tension  
continuous measurement, improved accuracy, sick newborn infant: short report, 307  
servo-control, new technique, preterm infants, 278
- Arteriosonde, Infrasonde, and mercury sphygmomanometer, clinical evaluation and comparison, 184; 160, P.; erratum, 420
- Arteritis, Takayasu's, as differential diagnosis from systemic juvenile chronic arthritis: short report, 798
- Arthritis, juvenile, chronic,  
antigen-antibody complexes in serum, 120  
systemic, Takayasu's arteritis as differential diagnosis: short report, 798
- Aspergillosis, neonatal, accompanying fulminant necrotising enterocolitis: short report, 559
- Aspirin, rectal, absorption and antipyretic effect: short report, 713
- Asplenia in the Ivemark syndrome, evidence against primary agenesis, 153, P.  
polysplenia, comparative study of susceptibility to infection, 153, P.
- Asthma childhood,  
acute, use of nebulised salbutamol, 163, P.  
bronchial, in Nigerian children, 448  
controlled trial of family psychotherapy, 116  
comparison of salbutamol IV and aminophylline IV: short report, 391  
house dust mite sensitive, hyposensitisation in, 164, P.  
use of nebulised chlorpheniramine, bronchodilator effects, 163, P.  
effects of physical training on hormonal responses to exercise, 524
- AT10 (dihydrothachysterol) in treatment of hypercalcaemia: correspondence, 82
- Ataxia-telangiectasia, diagnostic considerations, 682
- Azathioprine and cyclophosphamide, controlled trial in nephrotic syndrome and poorly selective proteinuria, 204
- Bacteria, role in acute wheezy bronchitis, 587
- Basal acid secretion, serum cholecystokinin and infantile pyloric secretion, 773
- Beclomethasone dipropionate, clinical comparison of aerosol, or as powder from rothaler: short report, 233
- Behaviour  
deviance after early treated phenylketonuria, 14  
disturbance, in 3-year-olds, followed up study, 970 P.

- Betamethasone, follow-up study of babies exposed to before birth, **725, P.**
- Betamimetics and neonatal lung adaptation, **153, P.**
- Bile,  
acids, concentrations, total serum, postprandial, in cystic fibrosis, **164, P.**  
duodenal, in protracted diarrhoea, infants, **131**  
salts, intestinal, in cystic fibrosis, **19**
- Bites, snake, in children: short report, **392**
- Bleeding, vaginal, recurrent, in infants and young girls without other evidence of precocious puberty: short report, **472**
- Blood,  
formation in infancy: annotation, **831**  
pressure in first six weeks of life, **726, P.**  
measurement, comparison and clinical evaluation of Infrasonde, Arteriosonde, and mercury sphygmomanometer, **184: 160, P.: erratum, 420**  
Rh type, maternal, and spina bifida: correspondence, **567**  
transfusion, and cytomegalovirus in neonates, **538**  
volume change, renin and aldosterone response in human newborns: correspondence, **80**
- Body,  
fat in newborn: annotation, **845**  
fatness, height and weight, family resemblance, **877**

# ARCHIVES OF DISEASE IN CHILDHOOD

*The Journal of the British Paediatric Association*

## Original articles

- Intellectual performance in children after circulatory arrest with profound hypothermia in infancy  
*D. F. Dickinson and J. E. Sambrooks* 1
- Congenital complete heart block in the newborn associated with maternal systemic lupus erythematosus and other connective tissue disorders  
*J. D. Hardy, S. Solomon, G. S. Banwell, R. Beach, V. Wright, and F. M. Howard* 7
- Behavioural deviance in children with early treated phenylketonuria  
*J. E. Stevenson, Janet Hawcroft, Mary Lobascher, Isabel Smith, O. H. Wolff, and P. J. Graham* 14
- Intestinal bile salts in cystic fibrosis: studies in the patient and experimental animal  
*J. T. Harries, D. P. R. Muller, J. P. K. McCollum, A. Lipson, E. Roma, and A. P. Norman* 19
- Complete deficiency of adenine phosphoribosyltransferase: a third case presenting as renal stones in a young child  
*T. M. Barratt, H. A. Simmonds, J. S. Cameron, C. F. Potter, G. A. Rose, D. G. Arkell, and D. I. Williams* 25
- The lungs in congenital bilateral renal agenesis and dysplasia  
*Alison Hislop, E. Hey, and Lynne Reid* 32
- Cows' milk protein-sensitive enteropathy: an important contributing cause of secondary sugar intolerance in young infants with acute infective enteritis  
*N. Iyngkaran, K. Davis, M. J. Robinson, C. G. Boey, E. Sumithran, M. Yadav, S. K. Lam, and S. D. Puthucherry* 39
- Prognostic factors in acute meningococcaemia  
*L. S. Lewis* 44
- Aortic arch interruption presenting with absence of all limb pulses  
*G. P. Sharratt, R. Leanage, J. L. Monro, and E. A. Shinebourne* 49

- Housing and mothering  
*M. Pollak* 54
- Conservative care of the newborn baby  
*T. H. Hughes-Davies* 59
- Plasma somatomedin activity in protein calorie malnutrition  
*P. S. Mohan and K. S. Jaya Rao* 62
- Isoniazid liver injury during chemoprophylaxis in children  
*P. Spyridis, C. Sinaniotis, I. Papadea, L. Oreopoulos, S. Hadjiyiannis, and C. Papadatos* 65

## Short reports

- Delayed diagnosis of congenital anal stenosis  
*E. M. Kiely, R. Chopra, and J. J. Corkery* 68
- Acute anuric renal failure in an infant with systemic candidiasis  
*J. Z. Heckmatt, S. R. Meadow, and C. K. Anderson* 70
- Leukaemic hypopyon in acute lymphoblastic leukaemia after interruption of treatment  
*G. Masera, V. Carnelli, C. Uderzo, C. Toselli, F. Lasagni, and E. Lambertenghi* 73
- Reye's syndrome associated with respiratory syncytial virus infection  
*N. Griffin, J. W. Keeling, and A. H. Tomlinson* 74
- Chloramphenicol and phenobarbitone—a drug interaction  
*R. A. Bloxham, G. M. Durbin, T. Johnson, and M. H. Winterborn* 76
- Food allergy: response to treatment with sodium cromoglycate  
*J. B. G. Watson and J. Timmins* 77
- Correspondence** 80
- Book review** 84

President of the British Paediatric Association

Editor, *British Medical Journal*

Technical Editor: Jennifer Orton

#### Notice to Contributors

Papers for publication should be sent to the Editors, *Archives of Disease in Childhood*, B.M.A. House, Tavistock Square, London WC1H 9JR. Submission of a paper will be held to imply that it contains original work which has not been previously published. Permission to republish must be obtained from the Editors.

**Short reports.** Case reports, brief laboratory observations, preliminary communications, and other short papers may be submitted for this section. Length must not exceed two printed pages of the *Archives*, i.e. in general not more than 1000 words of text, two figures or tables, and eight references. Single case reports will usually only be considered in this form.

For guidance on ethical aspects authors should refer to Editorials in this Journal (1967, 42, 109; 1973, 48, 751).

One page proof will be sent to the author submitting the paper.

**Reprints.** Twenty-five reprints are supplied free and further reprints may be ordered when the proof is returned.

Authors should check the following requirements before submitting a paper:

- (1) Scripts to be top copy and typed in double spacing.
- (2) SI units. The units in which the work was done will appear first with the other units, i.e. SI or traditional units, appearing after in parentheses. A conversion factor should be given as a footnote to tables, and in legends to figures.
- (3) Institution(s) where work done to be stated.
- (4) Address and position of author(s) to be given.
- (5) Name and address of author supplying reprints to be given at end of paper.
- (6) Figures: (a) provided with a caption, typed on a separate sheet, (b) referred to in the text.
- (7) Diagrams to be drawn on stout white paper; any lettering may be lightly inserted in pencil.
- (8) Photographs to be on glossy paper unmounted, and trimmed to include only relevant portion. Any lettering, etc. to be inserted should be indicated on a separate transparent sheet.
- (9) Coloured illustrations may be considered, but the author will usually be asked to contribute to the cost.
- (10) Tables (numbered, with titles) typed on to separate sheets. Large tables are expensive and are not encouraged.

(11) References in the text. Papers with one or two authors: name author(s) on each occasion the paper is cited with year of publication in parentheses. Papers with more than two authors: use—*et al.* in each citation.

(12) References to be listed alphabetically with full title of article or book; title of journal to be given in full, first and last page numbers of journal articles to be given.

(13) Summary to be typed on a separate sheet; and it should say what was done, and what was concluded.

#### Notice to Advertisers

Applications for advertising space and rates should be made to the Advertisement Manager, *Archives of Disease in Childhood*, B.M.A. House, Tavistock Square, London WC1H 9JR.

#### Notice to Subscribers

*Archives of Disease in Childhood* is published monthly. The subscription rate from January 1979 will be £28.00 in the United Kingdom and the Republic of Ireland, and US \$65.50 in all countries overseas. Payment for overseas subscriptions should be made in US dollars, i.e. US \$65.50, or in your national currency based on the prevailing exchange rate to the US dollar of that currency, payable to the British Medical Association. Orders can also be placed locally through any leading subscription agent or bookseller. (For the convenience of readers in the USA subscription orders, with or without payment, can also be sent to: BRITISH MEDICAL JOURNAL, 1172 Commonwealth Avenue, Boston, Mass., 02134. All inquiries, however, must be addressed to the publisher in London.)

All inquiries regarding air mail rates and single copies already published should be addressed to the publisher in London.

COPYRIGHT © 1979 by *Archives of Disease in Childhood*. This publication is copyright under the Berne Convention and the International Copyright Convention. All rights reserved. Apart from any relaxations permitted under national copyright laws, no part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form or by any means without the prior permission of the copyright owners. Permission is not, however, required to copy abstracts of papers or of articles on condition that a full reference to the source is shown. Multiple copying of the contents of the publication without permission is always illegal.

# Reduced Subscription Rates for Junior Hospital Doctors Residents and Interns...

from January 1 1979

## Archives of Disease in Childhood

will be available to junior doctors in all parts of the world for a maximum of four consecutive years at **REDUCED Annual Subscription Rates.** (Thereafter, or when reaching consultant status this special offer will no longer apply.) The following subscription rates apply for the twelve issues published in 1979.

**Inland £17.00**

**Overseas US\$40.00**

(The full rates are: Inland £28.00; Overseas US\$65.50)

*The opportunity to subscribe to this journal of international authority and repute at a substantially reduced subscription rate is one not to be missed by junior doctors seeking to specialise in paediatrics.*

*Please complete the adjacent order form and send for your subscription NOW.*

*Further order forms can be supplied on request.*
